

API Documentation

Content Generation APIs

1. Generate Questions from Text

Endpoint: `POST /generate`

Input:

```
json
{
  "text": "النص العربي المراد تحليله",
  "async": false
}
```

Output:

```
json
{
  "success": true,
  "questions": "الأسئلة المولدة من النص",
  "original_text": "النص الأصلي",
  "metadata": {
    "source_type": "text",
    "source_info": {},
    "prompt_length": 245,
    "response_length": 312,
    "thread_id": 12345
  },
  "concurrent_users": 3
}
```

2. Generate Questions from PDF

Endpoint: `POST /generate`

Input:

```
Content-Type: multipart/form-data
pdf_file: [PDF file, max 50MB]
async: false (optional)
```

Output:

```
json

{
  "success": true,
  "questions": "الأسئلة المولدة من PDF...",
  "original_text": "النص المستخرج من PDF",
  "metadata": {
    "source_type": "pdf",
    "source_info": {
      "filename": "document.pdf",
      "file_size": 1048576,
      "extracted_length": 1250
    },
    "prompt_length": 245,
    "response_length": 312,
    "thread_id": 12345
  },
  "concurrent_users": 3
}
```

3. Test API (Development Only)

Endpoint: `POST /generate/test`

Input: Same as above endpoints

Output:

json

```
{
  "success": true,
  "questions": "أسئلة تجريبية مولدة من النص",
  "original_text": "النص المدخل",
  "metadata": {
    "source_type": "text",
    "source_info": {},
    "api_mode": "test",
    "text_length": 45,
    "response_message": "well received"
  },
  "concurrent_users": 3
}
```

Error Responses

Format:

json

```
{
  "success": false,
  "error": "رسالة الخطأ"
}
```

Common Errors:

- "لم يتم إدخال أي نص" - Empty text input
- "PDF لم يتم إرفاق ملف" - No PDF file uploaded
- "حجم الملف كبير جداً. الحد الأقصى 50 ميجابايت" - File too large
- "صالح PDF الملف ليس" - Invalid PDF format
- "there is a problem" - General error (test API)

System APIs

Health Check

Endpoint: GET /health

Output:

json

```
{  
  "status": "healthy",  
  "service": "ai-content-generator",  
  "max_workers": 4,  
  "concurrent_users": 3  
}
```

Statistics

Endpoint: `GET /stats`

Output:

json

```
{  
  "total_active_users": 5,  
  "timestamp": "2025-06-10T14:30:15.123456",  
  "users_by_timeframe": {  
    "last_1_min": 2,  
    "last_5_min": 4,  
    "last_15_min": 5,  
    "last_30_min": 5  
  },  
  "total_page_views": 15,  
  "total_requests": 28,  
  "unique_ips": 3  
}
```
